- Name: Yugandhar Deshmukh
  Course: CDAC Kharghar, (August 2024, Batch)
- SWOT Analysis
- Strength –
  1. Frontend web Development (HTML, CSS, JavaScript, Bootstrap, React JS.),
  2. Knows multiple programming languages (C++, Java, Python.)
  3. Knowledge of working with relational database using MySQL.
  4. Good sort of MS-Office Skills. (Word, Excel, PPT)
  5. Nice fashion sense.

- Weakness –
  1. Competition is so much now-a-days.
  2. Currently, market situation is down (so companies hiring less applicants.)
  3. Sometimes, I do procrastination.
  4. Since, I am a fresher, I don't have enough relevant work experience.

- Opportunities –
  1. Growing technologies which is a boon for me.
  2. Good people Networking

- Threats –
  1. AI can possibly replace us!!
  2. Social media addiction.

Actions Taken – I am doing digital detox, keeping limited usage of smartphone every day, doing exercise & meditation to keep myself healthy, Optimizing my projects, Contributing to Open Source, and also applied for PG-CDAC at Kharghar.
